

Jacob Sage

Website: jacobsage.com | 727-271-6660 | jacobsage12@live.com | GitHub: [SageJacob](https://github.com/SageJacob)

Education

University of Central Florida

B.S. Computer Science

Clubs: AI@UCF

August 2018 – May 2022

GPA: 3.53

Relevant Academics and Coursework

Calculus I/II, Algorithms and Data Structures I/II, OOP, Systems Software, Discrete Mathematics, Statistical Methods, Computer Structure and Organization

Skills

Languages: Python, Java, C, JavaScript, HTML, CSS

Frameworks: React.js, PyGame

Experience

EC-Council

Incoming Software Engineering Intern

May 2020 – August 2020

Tampa, FL

Esaote North America

Contract Work

October 2019 – November 2019

Tampa, FL

Created software in Python that reformats patients' files in mass quantity to aid the company's transition into newer equipment

Notable Projects

Maze Solver Python, PyGame

- Built a program that allows the user to draw a maze out of a 10x10 grid and uses a search algorithm to direct Toby (the in-game character) through the maze.

Visa Job Finder React.js, JavaScript, JSX, Node.js, HTML, CSS

- Handled the front-end development of a website used to help immigrants find work based off of their visa.
- Created for a group project at SwampHacks (University of Florida hackathon).

Compiler C

- Created a recursive descent parser that converts input from a pseudocode-like language, SimpleC, into LLVM IR machine code.

Pong Python, NumPy, PyGame

- Currently attempting to make an AI learn how to play Pong through the use of deep reinforcement learning.
